Dear Mr. Mosley,

Have been meaning to write quite awhile regarding "Photographic Whitewash." I found it very interesting. Am anxiously awaiting all new developments. I know with time you and Mr. Garrison will prove who murdered President Kennedy. It is frightening how the Government is controlling more and more. We are supposed to have a free press, but yet most magazines and newspapers deliberately brainwash the people of the United States. As far as TV networks, CBS's and NBC's specials were deplorable. It makes one wonder if the Government is somehow getting into the news media. It is controlling more and more which is very bad. It reminds me of the "black hand,"

It has become so underhanded and somewhat sinister, your postcript at the bottom of page 143 is probably quite true. I have thought to myself many times whether the CIA is involved in all the deaths – trying to cover up their tracks. Until it is proved, one can only speculate though,

Yours Truly,

Lucy A. Gardner

P.S. You are doing a great job and I think you are wonderful. I thought you were great when Steve Fredericks had you on the telephone hookup. Hope you'll be on again.
